Product no.: IN-942153

The genius form of the Möbius strip as a non-orientable surface, which connects an infinite motion, can be found not only in mathematics and technology but also in modern literature and art. Works by M.C. Escher and Max Bill are well known. With just a few twists, the strip creates a composition that captures our gaze and encourages us to dream and relax.

Made using the Lost-Wax-Process, the bronze sculpture received further refinement through the manually applied patina. Size 55 x 27 x 33 cm (h/w/d). Weight approx. 13,5 kg. Shipped without pedestal.
